**Hurt Stealing Ride.**

With injuries sustained in a fall from a trolley car, on which he was "stealing a ride," Leland Bernhardt, nine years old, of 382 Broad street, is in the Mountainside Hospital, Montclair. The physicians there believe his skull is fractured.

The accident occurred at Broad and Maple streets, Thursday morning. The injured lad was carried into the office of the Bloomfield Coal and Supply Co., where Dr. John D. Moore gave him temporary treatment before sending him to the hospital.

It was at first believed that the boy had been struck by the car, which did not stop after the mishap. An automobilist followed the car to the Lackawanna Railroad crossing at Glenwood avenue, and the motorman, Frank Coleman, was compelled to stop.

Both Coleman and the conductor, L. A. Smith, denied any knowledge of the accident and were allowed to proceed with the car when the facts became known to the police.

**Condemned the Governor.**

In line with the Board of Trade of the town and the council of Bloomfield, the Belleville Board of Health Tuesday night passed a motion condemning Gov. Wilson for vetoing the Beard bill. Henry J. Mason made the motion condemning the governor. John F. Flanagan said that, as he was the only Democrat in the body, he wished that the privilege had been his.

The board was anxious to know just what was being done about the Imhoff matter, and asked Town Counsel John DeGraw. He replied that he understood an effort was being made by those in charge of the matter to find if there was enough sentiment to pass the Beard bill over the governor's head.

**NORWAY'S AMAZING ARMY.****Foot Soldiers Who Travel Thirty Miles an Hour.**

One of the most fascinating military sights in the world is to watch Norwegian infantry, mounted on skis, traveling and maneuvering. Even with rifle and full marching kit on his back a Norwegian soldier, when equipped with his snowshoes, can travel at thirty miles an hour on a slight grade, and even on level ground he can cover from fifteen to twenty miles an hour. The skis used by the Norwegian soldiers consist of flat pieces of wood eight feet to twelve feet long and four and one-half to six inches broad. The Norwegian infantryman is trained from childhood in the use of skis, and his skill is such that he can glide in and out of the trees without a crackle to betray his whereabouts.

When marching orders are sounded the leader swings out and keeps up a hot pace. Once in sight of a supposed enemy a pile of snow is quickly scooped up, and ensconced behind this simple but effective protection the skisman can take pot shots at the foe.

During some recent maneuvers in which 10,000 infantrymen participated the value of skis as an adjunct in warfare was clearly demonstrated. Over roads piled so high with snow that cavalry would have been unable to make any progress whatever, the infantry, mounted on their skis, covered from twenty to thirty miles an hour without mishap of any kind. Of course, it would be practically impossible in most instances for the artillery, with their heavy guns, to follow the infantry over the snow-cold roads and passes, but for skirmishing and scouting ski running soldiers are extremely valuable.

Governor Wilson's veto of the Beard bill was discussed at the meeting of the Nutley Town Council last week, and there was a general expression of disappointment and regret over the final result of all the hard work that had been done in getting the bill through the House and Senate. The general expression of sentiment was to the effect that the governor had not given sufficient consideration to the injury that would be done to the towns affected by his veto if the Imhoff sewage disposal plant was located where Montclair and East Orange now intended to place it.

Mayor Lusk declared that an effort would be made to get the bill through despite the governor's veto.

In the discussion that followed, the mayor stated that the original effort for legislation was made imperative because the State Board of Health, to the hands of which the governor relegated the question in his veto message, had "prejudged the matter."

The council ordered votes of thanks, for their efforts sent to Senator Johnson, Mr. Beard and Freeholder Seymour P. Gilbert of this town. There was added a vote of thanks to the mayor for his work in behalf of the bill.

Much indignation prevailed in Belleville over the veto and the governor came in for some criticism. Mayor Charles L. Dennison said:

"I can only say I am very much disappointed—very much. I can't understand why he should do such a thing. Why, the sanitary reasons he gave for his action are not relevant to the point at all. It was purely a question of home rule."

"There is one thing, though, every means will be exhausted by Belleville before we will ever permit that Imhoff plant to be erected within our limits. What we would like to know, however, is what real reason the governor had, and we can't see any reason, unless some influence was brought to bear on him."

"I think the governor lost sight of the fact that a Passaic Valley sewage district has already been created," said Town Counsel John DeGraw of Belleville. "The Legislature has given the municipalities in the district ample opportunity to take care of their sewage by joining in it. He should have taken into consideration that his bill would have made impossible a condition under which injustice may be done without hope of redress. Later it could have been changed when a comprehensive plan for State disposal was worked out."

**Wants Dog Ordinance Amended.**

The Town Council was, on Monday night, requested to amend the dog ordinance in a manner to conform to the business of breeding, buying, selling and boarding of dogs.

The present ordinance deals only with the taxation of dogs and the muzzling of them at certain periods of the year. The request for an amendment of the ordinance was as follows:

"The writer conducts a small dog-breeding establishment at 98 Thomas street and is desirous of obtaining a permit from the Town Council to continue to do so. For the past two years licenses have been paid upon two grown female dogs owned by the kennel, and there has been no complaint from any neighbors, or any one. Our grounds are entirely fenced, and the dogs always kennelled when not being exercised. Possibly, under the ordinance of March 15, 1910, it would not be possible for the Town Council to grant a permit without an amendment to the present dog ordinance, which exacts a tax of three dollars on female dogs and one dollar on male dogs. As we are constantly buying, selling, breeding and boarding dogs, this would work a hardship in this instance, and it is the belief of the writer, that no such intent was contemplated in the present ordinance; in the case of a breeder and handler of dogs, this charge would hardly be equitable. This business is a partial source of livelihood to the writer and of no annoyance to any one in the town, proof of which will be gladly submitted."

"There are four other small dog-breeding establishments in the town, the owners of which would be glad to obtain a permit. The writer would respectfully suggest that in the event of the Town Council considering this request favorably, and if deemed necessary to amend the present ordinance, sufficient safety be accorded the public to properly protect their interests, such as specifying that the grounds must be properly and securely fenced, the dogs kennelled and properly housed, that no dogs be allowed outside of the grounds except under leash of not over four feet or in carriers; further, that a bond be furnished the town to secure the fulfillment of the foregoing, to an amount deemed necessary by the Town Council, and that an annual fee be prescribed for permits so granted."

**Boy Scout News.**

The next regular meeting of the local council B. S. A., will be held on Tuesday evening, April 9, at 8 o'clock in Jarvis Memorial Rooms.

A large number of boys from the different troops of this town have taken advantage of the spring vacation, by going on all-day hikes to the woods and mountains, some have gone in patrols on bicycles to Singac, Little Falls and other places.

This will give these boys some experience in order to qualify to become first-class scouts. The official manual requires that a boy must make a round trip alone (or with another scout) to a point at least seven miles away, going on foot or rowing boat and write a satisfactory account of the trip and things observed. Also draw from field notes made on the spot, an intelligible rough sketch map, indicating by their proper marks, important buildings, roads, trolley lines, landmarks, etc.

A scout surprise party was tendered Master Jean Saville of 362 Franklin street, in honor of his thirteenth birthday, Wednesday evening. About thirty boys from troop No. 5, in full uniform, attended in a body. An enjoyable evening was spent in games and scout drills. Music was furnished by Mr. and Mrs. Saville and the officers of the troop. Refreshments were served.

Don't forget the cake and candy sale to be given by the King Snake Patrol of Baptist Troop No. 5, B. S. A., at the Centre School, April 9, at 4 o'clock. All welcome. Mothers should be interested. Monopoles on exhibit. Hand-colored postals for sale. The proceeds of this sale will go toward the paying of camp expenses of this patrol next summer.

Many persons suffer with every symptom of flat-foot when, upon ordinary examination of the foot, the appearance of the foot is normal. A person having this trouble usually complains of pains and aches in the feet, tiring after short walks, and a desire to rest the toes and a general burning sensation, also pains in the back and spine, and nervousness are frequently found to be caused by this condition. In the later stages, the muscles have become so weakened and relaxed that the weight of the body crushes down the arch structure. Come in and let me examine your feet.
